A Board Workshop on 2015-16 Student Data (Click Here) (copy filed) was held at 6:30 p.m. in the HS Theater Room. Dr. Doll walked through each section of the handout which included the linked PowerPoint, a York County comparison, a PDE/statewide lens, SPP (School Performance Profile) scores for each building, achievement versus growth explanation, “depth of knowledge” (how questions have changed), and lastly, the clear action plans which principals spend countless hours developing for respective buildings for the coming year. He also spoke about standardized assessments given to non-standard students; Goal 1 of the DASD Comprehensive Plan; how the target has changed from 2012-13 through 2015-16 and beyond; the purpose and calculations for SPP; the difference between achievement and growth (referencing PVAAS for the latter); and SPP scores since 2012-13 – noting the different SPP calculation for K-3 (no growth and the challenge in comparison). Overall, for the 2015-16 school year:

- Dallastown Elementary School received the highest score of all schools in York County
- Dallastown Area High School received the highest high school score in York County
- Dallastown Area Intermediate School received the highest intermediate school score in York County
- Dallastown Area Middle School received the second highest middle school score in York County

Dr. Ferree spoke to DASD’s strengths and opportunities: our instructional program, grit/stamina/work ethic, relationships, and focus on instruction/extension/remediation, vocabulary, and use of data. She also reviewed the high school’s results for college preparedness (i.e., ACT, SAT and AP scores).

Dr. Nicholson asked if we could compare ourselves to other “like” districts/schools, which we can do for SPP. Mr. Noll inquired about special education students, staff/resource coordination across the elementary level, and indicators/correlation of students through those grades. Additional questions/feedback can be addressed to Dr. Doll. Mr. Potter suggested further activity on this topic.

The workshop adjourned to a break at 7:28 p.m.
