Located in York County, south central Pennsylvania, the Dallastown Area School District is 34 miles south of the state capital, Harrisburg. The district includes Springfield Township, York Township, and the boroughs of Dallastown, Jacobus, Loganville, and Yoe.

A diverse population includes agriculture, manufacturing, and service industries across 52.5 miles of Susquehanna Valley countryside. More than 41,000 people live in the Dallastown Area School District and more than 6,000 students are served in five kindergarten through third grade elementary schools, a fourth through sixth grade intermediate school, a seventh and eighth grade middle school, a grade nine through twelve high school, and two non-traditional educational options, the Dallastown Area Cyber Academy and the Dallastown Area Alternative Education Academy.

The school district employs 425 instructional staff, 240 support staff, and 25 administrators in order to provide our students a world class education.

Mission

The mission of the Board of School Directors and the staff of the Dallastown Area School District, in partnership with family and community, is to provide a safe, innovative, and challenging student-centered learning environment that will prepare each student to become a successful, ethical, responsible, and contributing citizen of this changing world.

Board of School Directors
2012-13

Kenneth “Butch” A. Potter, Jr., President
Ronald J. Blevins, Vice President
Steven C. Bentzel
Sue A. Heistand
Donald E. Jasmann
William A. Lytle
Michael D. Noll, Jr.
Kristin L. Phillips-Hill
Lauren L. Rock
Dr. Ronald E. Dyer, Superintendent
Dr. Joshua A. Doll, Assistant Superintendent
The primary focus of the Dallastown Area School District is on its students and the academic and instructional program in which each student is engaged. Certainly, we strive to accomplish that mission within an efficient and effective manner, mindful of fiscal constraints. Although the current economic climate presents fiscal challenges, our district has been able to provide a rich, stimulating, and relevant educational environment for its students.

Last year, we combined the Annual Report with the Assessment of Quality Education Report into this document. In it, you will find information about the progress that we are making towards meeting the various accountability measures at the state and federal levels. Additionally, the Report provides facts, figures, and trends about other data that you may find interesting.

Meeting the educational needs of the 21st century student is both exciting and challenging. These students will face a world in which “change is a constant.” New skills, new methodologies, new technology, and high expectations for efficiency will emerge at a fast rate. This Report highlights some of the ways in which we are preparing the students for the world which is on the horizon for them.

We are proud of the relevant, vigorous, and comprehensive program presented to our students. You will find that the Report confirms that student achievement remains strong.

Thank you for your interest and support. We hope you find the Report informative.

Sincerely,

Ronald E. Dyer, Ed.D.
Superintendent

Strategic Plan

Goals 2008-2014

Goals and action plans as defined in the district’s Strategic Plan were adopted in August 2008 with a focus on the following initiatives:

Goal 1 – 100% Student Proficiency in Reading by 2014
Goal 2 – 100% Proficiency in Math by 2014
Goal 3 – Student Participation
Goal 4 – Attendance
Goal 5 – Curriculum Revision
Goal 6 – Restructuring K-8 Education in DASD
Goal 7 – Implementation of the DASD Middle States Accreditation for Growth Evaluation Goals
Goal 8 – Diversity Awareness
Goal 9 – Technology

Maintaining educational excellence despite increased costs of running a school district is an ongoing challenge. For the 2012-13 school year, only items essential to maintain district operations were added to the budget, while cost-cutting measures were taken including a wage freeze by the members of the Dallastown Area Education Association.

2012-13 Budget $90,014,199
Millage 22.26

Local Revenue..........................77.5%
The largest portion of the district’s operating revenue comes from the community.

State Sources..........................21.3%
Funds are provided by the state of Pennsylvania for education and other related expenses.

Federal/Other Sources...............1.2%
Includes federal revenue and miscellaneous revenue.

- Creating a Common Core Health Curriculum
- Aligning Tenth Grade (Level I) English to Meet Keystone Standards
- Preparing Eighth Grade Students for Algebra I Keystone Exams
- Kindergarten Math Mapping
- Biochemistry, Genetics, Evolution, and Ecology Keystones Curriculum
The district’s community education program offered sixty classes in 2011-12. Programs included adult enrichment, skills training, senior citizens programs, and numerous activities.
Assessments

Analysis of student achievement data was the focus of district staff development and faculty discussions. Each school disaggregated test results in grades 3, 4, and 5, noting strengths and weaknesses. Curriculum maps were revised based on analysis of student performance and achievement test results. During the 2010-11 school year, Dallastown Area High School implemented specific remediation courses in the areas of reading and science with approval from the district’s Board of School Directors. For 2011-12, the high school math department revised course levels and content to reflect increased rigor and academic expectations for students taking those courses.

Remediation specialists continued to assist students in the middle school. Literacy coaches assisted teachers in the elementary schools to interpret test data in meeting student and teacher instructional needs. We are confident that these and other measures translate into increases in our students’ achievement levels on multiple measures.

The graphs on the following pages indicate PSSA results in grades 3 through 8 and 11. Multiple years of data now exist for the grades and subject areas that make comparisons among test administration years easier.

Future work for the district’s teachers and administrators focus on aligning our academic program and high school graduation requirements with the state’s model curricula and the newly adopted national Common Core Standards. The district has in place a Keystone Exam Implementation Committee to support these endeavors.

Two assessments have been added to the elementary program: the Cognitive Abilities® Test (CogAT®) administered in grades 1 and 3, and the Measures of Academic Progress™ tests (MAP™) administered in grade 2.

No Child Left Behind and the Reauthorization of the Elementary and Secondary Education Act

The Bush Administration’s passage of No Child Left Behind (NCLB), signed into law January 8, 2002, warranted major changes and a reauthorization of the Elementary and Secondary Education Act (ESEA), enacted in 1965. Under the law, the number of students proficient in Reading and Mathematics must increase each year to reach 100 percent by 2014. The Pennsylvania State System of Assessment (PSSA) is used to measure student, school, district, and state performance in meeting this goal. Students with severe cognitive disabilities participate in the Pennsylvania Alternate System of Assessment (PASA). Results of each set of tests are aggregated for proficiency determinations through a formula set by the state.

For the 2011-12 school year, PSSA tests were administered to students in grades 3 through 8 and 11 in the areas of Reading and Mathematics. Certain grades were also administered Writing and Science tests.

For the 2012-13 school year, grade 11 PSSA tests will be eliminated. The Keystone Exams will be administered in the areas of Algebra 1, Biology, and Literature.
6th Grade 5-Year MATH Trend

6th Grade 5-Year READING Trend
On the 2011-12 PSSA tests, student performance is identified in one of four categories listed from highest to lowest level of student proficiency: Advanced, Proficient, Basic, and Below Basic. The goal is for all students to become Proficient or Advanced Proficient. These charts represent the percentage of students at or above Proficient:

Staff Development Courses and Workshops
Academic rigor prompts enrollment in various course levels, including Honors and Advanced Placement, and is reflected in the following charts:

Approximately 218 Advanced Placement® exams were taken in 2011 by students in grades 11 and 12.

The district encourages college-bound students to take these exams for possible exemption from freshman collegiate courses.

The College Board suggests that AP exam scores of three or higher should qualify students to receive college credit or advanced placement.
The ACT assesses high school students’ general educational development and their ability to complete college-level work. The multiple-choice tests cover English, Mathematics, Reading, and Science.

Data source: ACT College Readiness District Report.
Student performance on the Scholastic Aptitude Test (SAT) is an indicator of the effectiveness of secondary school initiatives. Dallastown students consistently perform above the state and national averages on the SAT, ensuring further academic opportunities after high school graduation.
• Only 33 high schools in the state had more students take the SAT.
• The total number of high schools reported by the state to have students taking the SAT was 684.
Student Attendance

Dallastown Area School District is committed to the belief that there is a relationship among regular attendance, academic achievement, and completion of a balanced and strong academic program. Regular daily attendance is required in order for students to obtain optimum learning benefits and necessary for effective instruction and evaluation. Dallastown Area School District student attendance figures are consistently above the state rate.

Student Drop-Out Rates

Dallastown Area School District teachers, administrators, guidance counselors, and learning support staff members strive to provide assistance to students at risk of dropping out of school. Student drop-out rates for Dallastown Area School District are currently below both state and county averages.

Dallastown Area School District
Grades 7-12 Drop-Out Rates

High School Graduation

High school graduation rates are an important performance measure and are essential in assessing the performance of Dallastown Area School District. The Pennsylvania Department of Education (PDE) includes high school graduate rate as a component of Adequate Yearly Progress (AYP) statistics. PDE requires an 85 percent graduation rate for a district to receive AYP.

The graduation rate is determined by “cohort” and is the number of students who graduate in a given year with a regular diploma divided by the number of high school students who entered four years earlier with adjustment each year for students who transfer in and out:

\[
\text{Graduation Rate} = \frac{(\text{Number of on-time graduates in 2012} - \text{Number of first-time entering 9th grade students in 2008}) + (\text{Number of transfers to the class of 2012}) - (\text{Number of transfers out of the class of 2012}) \times 100}{\text{Number of high school students who entered as 9th graders in 2008}}
\]

Additional formula details can be accessed at Pennsylvania Department of Education, www.pde.state.pa.us.
A school district’s progress is determined by each school’s measure of Adequate Yearly Progress or AYP. AYP benchmarks are set at the state level for Pennsylvania school districts. In order for schools to make AYP, the following targets must be met:

- 90% attendance rate at the elementary and middle schools or 85% graduation rate at the high school level.
- 95% participation rate on PSSA tests; and,
- Proficiency rates in Mathematics and Reading of all significant subgroups (for ESEA accountability computations, the minimum number of students in a district and/or building subgroup is 40 students).

In coming years, the proficiency rates for Reading and Mathematics increase each year. The chart shown displays the increased expectations through the 2014 school year.

The 2012 DASD Assessment of Quality Education Report describes the school district’s commitment to high quality education for all students. The composite of data continues to indicate firm evidence of the effectiveness of our academic program and the success of initiatives undertaken to achieve these goals. These data also indicate areas in which the district is experiencing challenges (such as growth and increased diversity in the student population).

Measures of quality include, but are not limited to, student enrollment and attendance rates, the number of highly qualified teachers, student achievement levels on state and national assessments, student participation in co-curricular activities, Advanced Placement® (AP®) enrollment and test results, and the level of parental and community support.

Effective reporting of student progress to parents is an important component of ensuring student success at school. Dynamic methods of reporting student progress are in place, such as the Home Access Center (HAC) website tool available to all students and parents, promotion of parent conferences, report cards, interim reports, and encouraged/open communication between home and school.

The Assessment of Quality Education Report not only provides an accounting of the school district’s performance on established milestones of the ESEA (NCLB) and PSSA indicators, but also includes multiple measures of other indicators. Comparisons of data from previous years are provided when available.

- The emphasis on increasing student achievement is not limited to any one grade level.
- The elementary math framework for teaching has been updated to include current research on student learning and retention.
- Strong writing has always been connected to reading comprehension. This year, the district expanded Lucy Calkins Writing Workshop from 1st grade to 2nd grade as well.
- To assist with learning more complex mathematical concepts, the district implemented Mastering Math Facts in 1st through 3rd grades.
- District teachers continue to align and revamp our high school courses with the state's expectations and model curricula. Please see Curricular Initiatives: Keystone Exams on Pages 32 and 33.
The Cognitive Abilities® Test (CogAT®) measures both general and specific cognitive abilities in verbal, quantitative, and nonverbal areas. Students in grades 1 and 3 participate in the CogAT® testing. These results are individually reported to parents.

MAP™: Measure of Academic Progress

Second grade students are tested at the beginning and end of the academic year through the MAP™ tests. MAP™ measures students’ reading and mathematics achievement and provides another indicator of student academic progress, along with monitoring the effectiveness of the academic program.

Note: MAP™ results are reported in RIT scores. The RIT score is derived from an equal-interval scale, similar to a scale such as feet and inches, that is independent of grade level. The score measures academic growth.

- Dallastown
- National Norm
Graduates and Post-Secondary Education

Post-secondary education rates reflect the percentage of Dallastown Area High School graduates planning to attend a two- or four-year college or university program, a specialized associate degree-granting institution or a nondegree-granting post-secondary school program. For the most recent year reported by the Pennsylvania Department of Education, 73.2 percent of Dallastown Area High School 2011 graduates planned to attend a post-secondary college, university or school. The 2012 graduating class profile includes:

80% Plan on continuing their education

8% Plan on entering the workforce

3% Have enlisted in the military

9% ARE UNDECIDED

Of the 456 Dallastown Area High School 2012 graduates, 358 plan to continue their education:

14 plan to attend a nondegree-granting post-secondary school program.

12 plan to attend a specialized associate degree-granting institution.

53 plan to attend a 2-year school.

279 plan to attend a 4-year college or university program.
Model for Teaching incorporates three research-based elements essential for all successful teaching and learning. These elements include Relationships, High Expectations, and Achievement. The three elements are intertwined to provide effective research-based prospects for student success.

Relationships are designed to foster a deep connection between the teacher and learner with regard to rapport and instruction.

High Expectations requires the teacher to develop high expectations for all students based on deliberately planning effective lessons and utilizing what and when strategies geared toward having all students achieve success.

Achievement is centered on the principles of assessment, feedback, and reflection. Achievement for all students is paramount and the opportunities for students to engage in standard-based assessments that are fostered by high expectations and content from the district curriculum maps is an essential component of instruction in the Dallastown Area School District. When teachers provide valuable feedback to students, and teachers engage in self-reflection, both the learner and teacher are able to excel.

The Dallastown Area School District’s staff development plan is included as part of the Strategic Plan and is reviewed annually. The district maintains a standing Professional Development Steering Committee that guides the district’s professional learning. The K-12 Curriculum Committee, the Administrative Leadership Team, and the Curriculum Leadership Team also assess professional learning activities in their comprehensive examination of student performance and achievement targets.

District ongoing and summer staff development and curriculum workshops are offered in support of district goals and priorities as established in the DASD Strategic Plan.

The district’s New Teacher Induction Plan is designed to align with the staff development plan. Our district collaborates with the Lincoln Intermediate Unit and other York County school districts to implement the Induction plan. A major thrust of the staff development program for the 2011-12 school year was training focusing on the district’s Model for Teaching, a compilation of the district’s “best practices” in designing and delivering quality instruction.

Additional opportunities for staff development included workshops hosted by various intermediate units in the south-central Pennsylvania region, and specific workshops held in the state capital area.
Curricular Initiatives

At all organizational levels, planned instruction is developed, revised, and taught to all students according to the provisions mandated in Title 22, Sections 4.21, 4.22, and 4.23 (Chapter 4) of the Pennsylvania Code. Dallastown faculty, staff, and administration are focused on goals that are relevant to increasing student achievement and in providing staff development that is relevant to district goals and state standards.

Dallastown administration and staff members have formulated goals, strategies, and activities in the Strategic Plan to articulate, train, and coordinate K-12 personnel in implementing the K-12 curriculum revisions and related instructional components. The Strategic Plan promotes further developments and revisions to curriculum maps for courses, areas, and grade levels; to analyze data and use these results to inform instruction; to attract and retain a highly qualified teaching staff and administrators; and, to apply for state and federal grants for instructional enhancements.

Curriculum initiatives include:

- Reflecting on diversity in curricular approaches and materials.
- Using the Model for Teaching in designing and delivering quality instruction reflecting the needs of the 21st century learner.
- Common Core State Standards and the implementation of the Keystone Exams.

The Curriculum Leadership Team:

- Examines learning outcomes and disaggregates data in a variety of ways.

- Monitors activities contained in the district’s 2008-14 Strategic Plan.

- Supports diversity and equity efforts defined in the district’s Diversity Focus Strategic Plan.

- Sustains the work of the various committees involved with curriculum revisions, curriculum mapping, and implementing the Keystone Exams.

- Provides input about the district’s Cyber Academy and other initiatives.

- Monitors the Moodle initiative.

- Establishes frameworks for various Professional Learning Communities in the district.

- Enhances course offerings in high school Mathematics and Biology.

- Continues work on the alignment of high school courses with the Pennsylvania state model curricula and Keystone Exam expectations.
The Dallastown Area School District Strategic Plan, a six-year blueprint for educational recommendations for the district into the 2013-14 school year, includes revisions and enhancements to various programmatic areas. The implemented Strategic Plan includes continued preparatory work on the restructuring of K-12 education.

As stated previously, Dallastown faculty, staff, and administration are devoted to the task of preparing our students for the demands of the 21st Century. Staff members strive in their daily work with students to “challenge them,” “reach them,” and “spark their interest.”

When visiting our schools, you should see the truth of those statements evidenced around you.

Keystone Exams

The Keystone Exams are end-of-course assessments designed to assess proficiency in the subject areas of Algebra I, Literature, and Biology. Starting with the 2012-13 school year, Keystone Exams will replace the 11th grade PSSA. As a result, high school students that are currently in 11th grade and/or have previously completed an Algebra I, Literature or Biology course will participate in the assessment.

The assessments are divided into two modules that take approximately 2 to 2-1/2 hours to administer. Students who fail to reach proficiency will be given the opportunity to retake the assessment.

Summary

In conclusion, the 2012 Assessment of Quality Education Report highlights the strong student performance found in the district. While we are proud of these achievements, we are facing the challenges of sustaining student performance at increasing rates of expected proficiency. Through collaborative efforts with our school community and by systematic improvements to our instructional program, we are confident that we will provide a truly world-class education to the students we serve.

Indicators of Student Performance

STATE AND NATIONAL ASSESSMENTS

- PSSA
- Keystone Exams
- SAT and ACT
- CogAT
- AP Exams
- Differential Aptitude Test
- MAP Tests

CLASSROOM ASSESSMENTS

- Quizzes and Tests
- Portfolios
- Performance Tasks
- Essays and Term Papers
- Oral Presentations and Projects

DISTRICT ASSESSMENTS

- Portfolios
- Culminating Project
- Diagnostic Reading Assessments
- Algebra Readiness
- Benchmark Assessments
